### A little bit about me

A highly motivated, hard-working, self-taught front-end developer willing to put extra effort to change the course of current carrier path.

As been honest, creative and reliable person, during the 11 years of my proffesional life in a journalism, I successfully mannaged to crossed all the stairs from absolute beginner all the way to news editor.

Considering passion, desire and working ethics, I strongly believe that I could do the same in programming.

Great experience and "know how" on high level positions, I am more than ready to put in a new working environment and contribute to the development of the company.
